Supervisor Guides

For **direct managers** — anyone who has staff reporting to them. You are the **first approval step** for your team's requests, and you maintain their attendance and commission sheets.

You also do everything an **Employee** does for yourself. Read those guides too. And start with the **General guide (Getting Started)**.

What you can do

I want to...	Guide
Approve (or refuse) my team's time-off requests	Approve time off
Request leave for a team member without a login	Approve time off
Record a team member's return from vacation	Approve time off
Approve (or refuse) my team's loan requests	Approve a loan
Mark my team's monthly attendance (non-biometric staff)	Attendance sheets
Record my team's commissions & allowances	Commission sheets
See my team's payslips	View team payslips

The golden rules

- You see and act on **yourself + your direct reports**.
- You are the **Direct Manager (DM)** step — the **first** approval on both leave and loan requests. After you approve, it goes to HR.
- **Time-off** requests live in **Time Off → Management → Time Off**; **loan** requests live in **Loans → Operations → Loans**.
- Every approval/refusal is recorded with your name; a refusal always needs a **reason**, which the employee sees.

Approving Time Off (Direct Manager)

Who is this for: Supervisor / Direct Manager **How long it takes:** 1 minute per request

What this does

Lets you approve or refuse a leave request from someone who reports to you. You are the **first** step; after you approve, it continues to HR (and, for annual leave, through the rest of the chain).

Before you start

- You act only on **your direct reports'** requests.
- A refusal requires a short **reason** — the employee will see it.

Where to find your team's requests

Open the **Time Off** app, then **Management → Time Off**. This list shows your team's requests; find the employee whose request you want to review.

Steps

1. **Open the employee's request** from the Management → Time Off list (or click the request link in your Inbox).
2. **Review** the leave type, dates, and number of days.
3. **Decide:**
 - **Approve** → click **Approve (DM)**. The request moves on to HR.

The screenshot shows the Odoo Time Off request form for 'Train Employee on Annual Vacation (الإجازة السنوية)'. The form is titled 'Train Employee on Annual Vacation (الإجازة السنوية): 3 days (07/30/2026 to 08/01/2026)'. It includes fields for Employee (Train Employee), Department, Time Off Type (Annual Vacation (الإجازة السنوية...)), and Dates (Jul 30 to Aug 1 (3 days)). There is an 'Attach File' button. The 'ANNUAL LEAVE BALANCE' section shows 'Balance at Request (Days) 0.00' and 'Full Balance Clearance' with a toggle switch. The 'OPTIONS' section is empty. The right sidebar shows a chat window with OdooBot messages: 'Action Required — Direct Manager Approval' and 'Time Off created'.

- **Refuse** → click **Refuse**, enter the reason, and confirm.
4. **(Non-biometric staff only)** After you approve, a short window may appear asking how to reflect the leave on the attendance sheet — choose **Mark All Absent** to update those days automatically, or **I'll Update Manually** to do it yourself later.

Requesting leave for someone without a system account

Some field staff don't have their own login. In that case **you** submit the request for them and then approve the manager step yourself:

1. In **Management → Time Off**, click **New**.
2. Select the **employee**, the **leave type**, and the **dates**, then save.
3. Approve the **Direct Manager** step as above. The request then continues to HR like any other.

Confirming an employee's return

When one of your team returns from **annual** leave, you record their return — the employee does not do this themselves:

1. Open the approved leave (it shows an **On Vacation** ribbon).
2. Fill in the employee's actual **Return Date**.
3. Click **Confirm Return**.

Why this matters: payroll is **blocked** for an employee with an unconfirmed annual-leave return. Confirming promptly keeps their next payslip on time.

What happens next

- **Approved** annual leave → moves to **Pending HR Approval**, then continues through GM → Accounting → GM → HR confirmation.
- **Approved** sick / unpaid / other leave → moves to **Pending HR Approval** (HR gives the final approval).
- **Refused** → the employee is notified with your reason and can revise and resubmit.

Common issues

Symptom	Cause	Fix
I can't see a request	The employee isn't your direct report	Confirm they report to you in Management → Time Off
No Approve (DM) button	Already approved, or not your team member	Read the status bar
Refuse won't confirm	Reason left empty	Enter a reason — it's required
The employee has no login	They're field staff without an account	Create the request for them (see above) and approve it

Approving a Loan (Direct Manager)

Who is this for: Supervisor / Direct Manager **How long it takes:** 1 minute per request

What this does

Lets you approve or refuse a loan request from someone who reports to you. You are the **first** approval step; after you approve it goes to HR, then Accounting, then the GM, then disbursement.

Before you start

- You act only on **your direct reports'** loan requests.
- A refusal requires a **reason**, which the employee sees.

Steps

1. **Open the Loans app → Operations → Loans** (or click the request in your Inbox).
The list opens on **Waiting For Me**, showing only loans at your step.

Name	Employee	Department	Type	Category	L...	Amount	Installm...	Total Paid	Total Pending	Progress ...	Start Month	State	Approv
LO00658	Train Emp...		Personal L...	Borrowed...		5,010.00 SAR	10	0.00 SAR	5,010.00 SAR	0 %	Jul 1	Draft	Pending ...

2. **Open the request** and review the amount, number of installments, the resulting monthly payment, and the employee's reason/attachments.
3. **Decide:**

- **Approve** → click **Approve (DM)**. It moves to HR.

The screenshot shows the Odoo Loans application interface. At the top, there's a navigation bar with tabs for Loans, Dashboard, Self-Service, Operations, and Reports. Below this is a sidebar with various icons for different modules. The main content area is titled 'New Loans LO00658'. It features a status bar with 'Approve (DM)' and 'Refuse' buttons, and a progress indicator showing 'Draft', 'Active', and 'Completed' stages. The loan details are organized into sections: 'EMPLOYEE' (Train Employee, Train Supervisor), 'TYPE' (Personal Loan, Borrowed with employee consent), 'FINANCIALS' (Amount: 5,010.00 SAR, Installments: 10, Total Pending: 5,010.00 SAR), and 'SCHEDULE' (Start Month: Jul 1, Total Paid: 0.00 SAR). A 'Loan Approval' section is currently active, showing a 'Pending DM Approval' status. On the right, an activity panel displays recent bot messages and actions, including 'Action Required - Direct Manager Approval' and 'Loan Request Submitted'.

- **Refuse** → click **Refuse**, enter the reason, confirm.

What happens next

An approved loan moves to **Pending HR Approval** and continues: **HR** → **Accounting** → **GM (final)** → **Disbursement** → **Active**. You'll see its state update in **Loans** → **Operations** → **Loans**. A refused loan returns to the employee with your reason.

Common issues

Symptom	Cause	Fix
I can't find the loan	Not your report, or not at your step	Use Waiting For Me ; confirm they report to you
No approve button	Already past the DM step	Check the approval state banner

Attendance Sheets (Non-Biometric Staff)

Who is this for: Supervisor / Direct Manager **How long it takes:** 5 minutes per month

What this does

Lets you record the monthly attendance of team members who are **not** on the fingerprint/face device. You mark each workday present or absent; the sheet then feeds payroll (uncovered absences cause deductions).

Before you start

- This is only for **non-biometric** employees who report to you.
- You edit a sheet during its month; once the month closes it becomes read-only.
- Days already covered by an **approved leave** are **locked** — you can't (and shouldn't) change them.

Steps

1. Open Attendance → Attendance Sheets.

2. Generate the sheets for the month if they don't exist yet — use **Generate All Sheets** on the list.

3. **Open an employee's sheet.** In the **Daily Attendance** tab you'll see one row per day.
4. **Mark attendance:**
 - Toggle each day between present (green) and absent (red), **or**
 - Use **All Present** / **All Absent** to set the whole month, then fix the exceptions.

5. Days with a linked **approved leave** are already filled and locked — leave them as they are.

What happens next

The sheet stays editable through the current month, then is confirmed (locked) when the month ends. Approved leaves automatically lock and fill the relevant days. If a sheet needs reopening after it's locked, an **HR / attendance manager** can Reset it to Draft (see the HR guide).

Common issues

Symptom	Cause	Fix
A day won't toggle	It's covered by an approved leave (locked)	That's expected — don't change it
No sheet for an employee	Not generated yet	Use Generate All Sheets

Symptom	Cause	Fix
The sheet is read-only	The month has closed	Ask HR to Reset to Draft if a correction is genuinely needed

Commission & Allowance Sheets

Who is this for: Supervisor / Direct Manager **How long it takes:** 5 minutes per employee per month

What this does

Lets you record the monthly **commissions and allowances** for your team members who receive them, and confirm the sheet so Accounting can pay it.

Before you start

- Applies to your direct reports who are set up for commissions.
- You fill and **Confirm** the sheet; Accounting then finalises it.

Steps

1. Open Commissions → My Subordinates' Sheets.

2. Open (or create) the sheet for the employee and period.

3. Add the lines — each commission or allowance with its **category** and either a **quantity** (for quantity-based items) or an **amount**.

- Shortcut: **Apply Template** pre-fills the lines from the employee's saved template, then you adjust.

4. **Check the totals** on the right. Note **Loans Deduction** shows the employee's current loan shortfall ("Live Shortfall") that will be recovered from this sheet — it freezes when you confirm.
5. **Confirm.** Click **Confirm** when the sheet is complete.

What happens next

The sheet moves **Draft** → **Confirmed** and the loan-recovery amount is frozen. It now waits for **Accounting** to finalise it (state → Done) and include it in a payment batch. You can no longer edit the lines once confirmed — ask an officer/accountant to reset it if you need to change something.

Common issues

Symptom	Cause	Fix
I can't edit after confirming	Sheet is Confirmed	Ask a commission officer/accountant to Reset to Draft
Employee has no sheet option	Not set up for commissions	Confirm eligibility with HR
A category is missing	Not in the catalog	Ask the Commission Admin to add it

Viewing My Team's Payslips

Who is this for: Supervisor / Direct Manager **How long it takes:** 1 minute

What this does

Lets you see the payslips of the people who report to you (read-only), so you can answer questions or check that pay was processed.

Before you start

- You can see **your own + your direct reports'** payslips. You cannot edit them.

Steps

- Open Payroll** from the main menu.
- Open a payslip** for a team member and read the salary lines (Basic, Gross, deductions, Net Salary) — same layout as your own payslip.

The screenshot displays the 'Employee Payslips' section of a software interface. The top navigation bar includes 'Payroll', 'Employee Payslips', 'Payslips Batches', and 'Employees'. The left sidebar contains various icons for 'Discuss', 'Calendar', 'Contacts', 'Dashboards', 'Loans', 'Employees', 'Payroll', 'Time Off', and 'Apps'. The main content area shows a 'New' button and a search bar with the text 'Employee Payslips Salary Slip of AAT KHAN LATIF KHAN Fo...'. Below this, there are tabs for 'Refund', 'Cancel Payslip', and 'Send E-Mail'. The 'Draft' tab is selected, showing a 'Draft' button and a 'Done' button. The 'Employee' section displays the name 'AAT KHAN LATIF KHAN' and various details: Period (Jun 1 - Jun 30), Employment (Jul 1, 2013), Reference (SLIP/11163), Structure (Attendance Sheets), Payslip Name (Salary Slip of AAT KHAN LATIF KHAN for June-2026), Credit Note (checkbox), Daily Wage (58.33), and Hourly Wage (7.29). Below this, there are tabs for 'Worked Days & Inputs', 'Salary Computation', 'Details By Salary Rule Category', and 'Accounting Information'. The 'Worked Days & Inputs' tab is active, showing a table with columns: Description, Code, Count, Value, Deduction, and Sequence. The table contains one row: 'Attended Days' with Code 'WORK100', Count '26.00 (days)', Value '192.00 (hours)', Deduction '0', and Sequence '1'. The 'OTHER INPUTS' section is visible at the bottom.

Description	Code	Count	Value	Deduction	Sequence
Attended Days	WORK100	26.00 (days)	192.00 (hours)	0	1

What happens next

Read-only. For corrections, contact HR/payroll — supervisors cannot change payslips.

Common issues

Symptom	Cause	Fix
I can't see a team member's payslip	Not a direct report, or not generated	Confirm they report to you and payroll has run
