Administrator Guides

For staff who **configure and oversee** whole areas of the system rather than process individual requests.

Start with the **General guide (Getting Started)**.

What you can do

Your area	Guide
Oversee all deductions & configure deduction types	Deductions administration
Configure commissions (categories, sites, rules, salespeople)	Commissions administration

The golden rules

- Configuration changes affect **everyone** — change catalogs (types, categories, rules) deliberately.
- Deduction officers/managers can see and act across the company; keep to your area of responsibility.

Commissions Administration

Who is this for: Commission Admin (and Sales Commission Manager) **How long it takes:** varies

What this does

Lets you configure the building blocks the commission sheets rely on: categories, work sites/trip tiers, sales & collection rules, and salesperson profiles. Sales managers can additionally override a commission condition on an individual sales line.

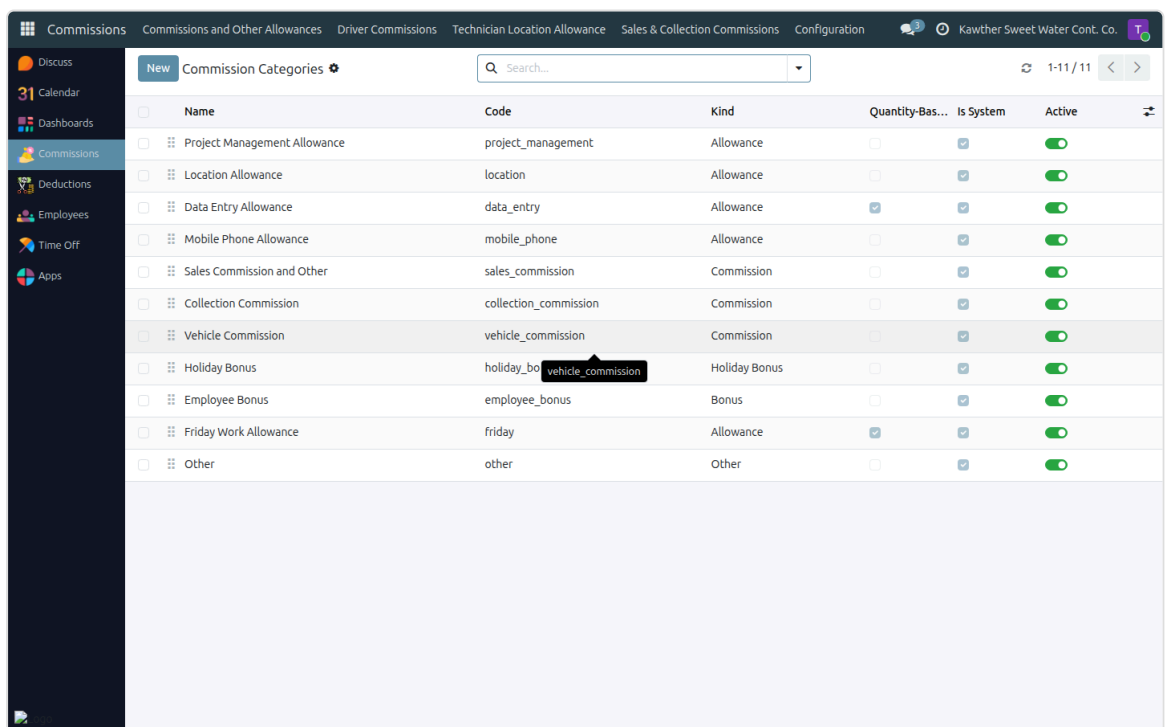

Before you start

- These are **configuration** items — changes affect every future commission sheet. Change them deliberately.

Steps — Configure the catalog

1. **Open Commissions → Configuration.** From here you manage:

- **Commission Categories** — the allowance/commission types supervisors pick on a sheet line.
- **Work Sites** — sites and their trip tiers (for location/driver allowances).
- **Sales / Collection Commission Rules** — thresholds and conditions.

☐	Name	Code	Kind	Quantity-Bas...	Is System	Active	
☐	Project Management Allowance	project_management	Allowance	☐	☒	☒	
☐	Location Allowance	location	Allowance	☐	☒	☒	
☐	Data Entry Allowance	data_entry	Allowance	☒	☒	☒	
☐	Mobile Phone Allowance	mobile_phone	Allowance	☐	☒	☒	
☐	Sales Commission and Other	sales_commission	Commission	☐	☒	☒	
☐	Collection Commission	collection_commission	Commission	☐	☒	☒	
☐	Vehicle Commission	vehicle_commission	Commission	☐	☒	☒	
☐	Holiday Bonus	holiday_bo	Holiday Bonus	☐	☒	☒	
☐	Employee Bonus	employee_bonus	Bonus	☐	☒	☒	
☐	Friday Work Allowance	friday	Allowance	☒	☒	☒	
☐	Other	other	Other	☐	☒	☒	

2. Add or edit an item and save. It becomes available on new sheets.

Steps — Salesperson profiles

1. **Open Commissions → Sales & Collection → Salespeople** to maintain each salesperson's profile used by the sales/collection commission rules.

Steps — Override a sales-line condition (Sales Manager)

1. On a sales/collection commission line that falls below the rule threshold, use the override to **grant** the commission anyway. The override is recorded with an audit trail.

The screenshot displays the 'Sales & Collection Commission Sheets' interface. The main section shows a commission line for 'KSC000006' with a period of 'May 1'. Below this, there is a table with columns: Employee, Split, Role, Target Sales, Achieved Sales, Sales %, and Target Coll. The table is currently empty, with an 'Add a line' button. To the right of the table, there is a summary section showing the following values:

Total Sales Commission:	5,090.74 SAR
Total Collection Commission:	0.00 SAR
Total Combined Commission:	7,804.39 SAR
Total Commission:	12,895.13 SAR

On the right side of the interface, there is an 'Activity' tab showing a log of actions. The log includes the following entries:

- Admin May 6, 2:39 PM: ✓ Commission-condition override granted on line for Abigail Peterson by Mitchell Admin.
 Reason: 11
- Admin May 5, 3:13 PM: Excel Import completed (Sales: Sales March 2026.xlsx | Collection: Collection March 2026.xlsx (VAT excluded ÷ 1.15))
- 4 line(s) updated/created:
 - Abigail Peterson [created] Sales: SAR 242,440.00 | Target Coll: SAR 412,688.46 | Collected: SAR 388,557.57
 - Sharlene Rhodes [created] Sales: SAR 91,272.00 | Target Coll: — | Collected: —
 - Tina Williamson [1% Sales only] [created (split)] Sales: SAR 426,016.00 | Target Coll: — | Collected: —

Below the log, there is a table showing the client details for the commission lines:

Client	Amount
120301045 — شركة نسما للصناعات المتحددة المحدودة - مجمع نوم	SAR 165,984.00
120301073 — شركة نسما للصناعات المتحددة - TNV-00002	SAR 151,776.00
120301416 — شركة نسما للصناعات المتحددة المحدودة - NEOM OXAGON COM	SAR 187,712.00
120301291 — شركة نسما للصناعات المتحددة المحدودة - NC2	SAR 544.00

At the bottom of the activity log, there is a warning message: 'Not found in Excel: 120301084, 120301073, 120301148, 120301291, 120301416, 120301045, 120301415, 120301060, 120301293'. Below this, there is another entry for Tina Williamson: 'Tina Williamson [created] Sales: SAR 675,385.14 | Target Coll: SAR 477,958.05 | Collected: SAR 153,553.39'.

What happens next

New categories/sites/rules appear on the next commission sheets supervisors create. Existing confirmed sheets are unaffected.

Common issues

Symptom	Cause	Fix
A supervisor can't find a category	Not added to the catalog	Add it under Commission Categories
Override option missing	You're not a sales commission manager	It's restricted to that role

Deductions Administration

Who is this for: Deduction Officer / Deduction Manager **How long it takes:** varies

What this does

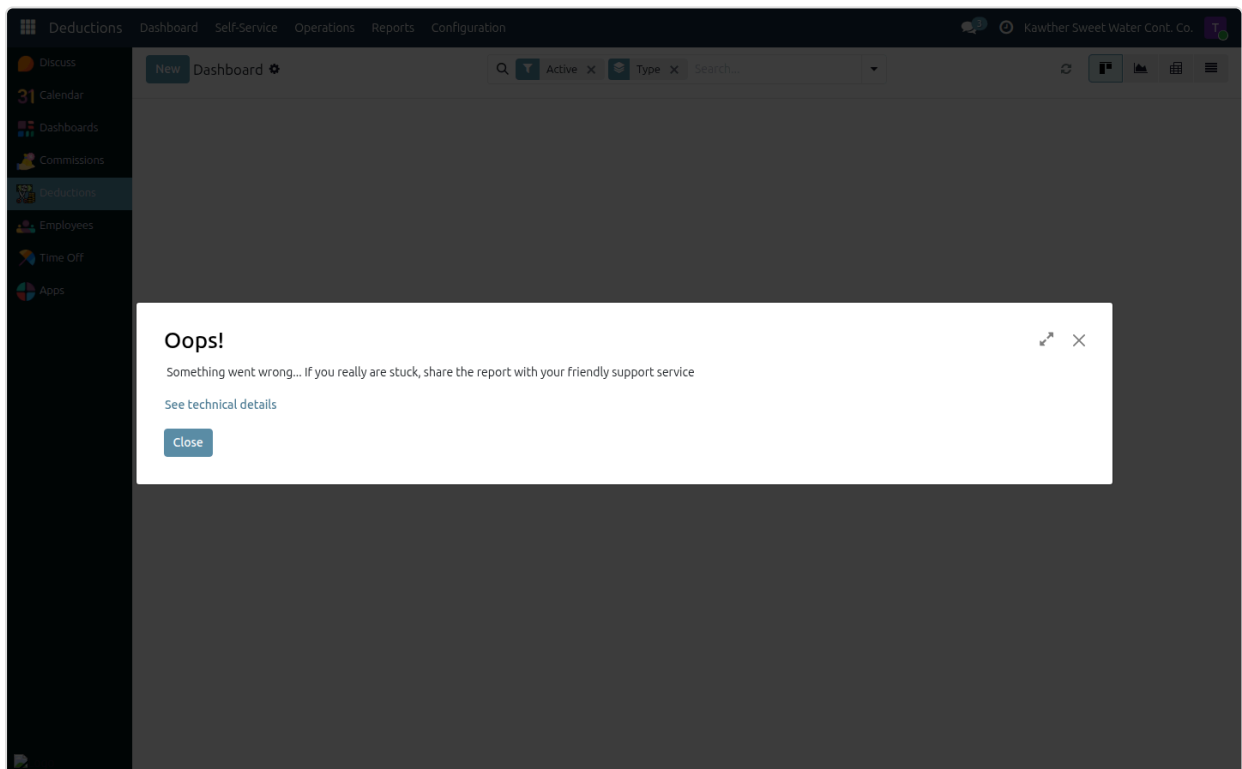

Lets you oversee **all** deductions across the company from a single dashboard, create any deduction type, and (as a manager) configure the deduction-type catalog. Managers can also edit or delete loans **before** they're confirmed.

Before you start

- Officers see and manage all deductions (loans + HR-managed). Managers add the ability to configure types and delete records.

Steps — Oversee deductions

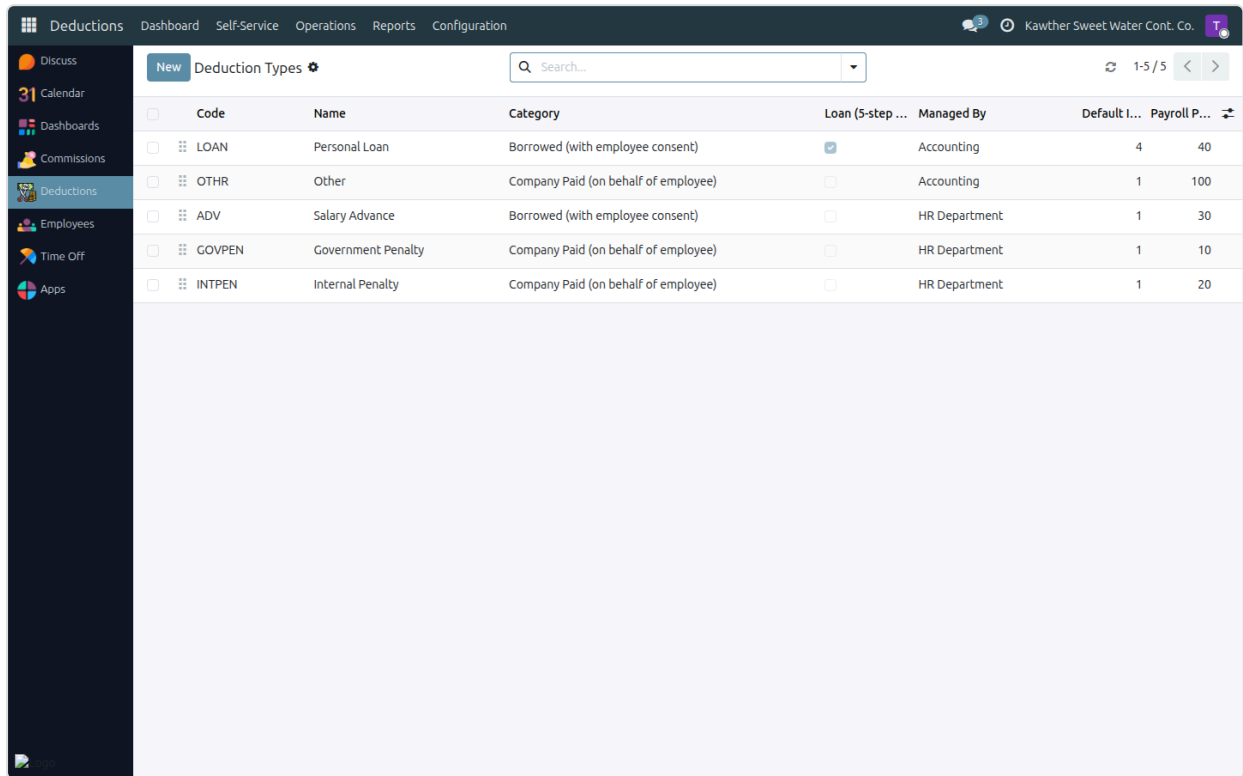

1. **Open Deductions → Dashboard** for a company-wide view (by state, type, department) with kanban, graph, and pivot.

2. **Open Deductions → All Deductions** to browse or create any deduction, or use the **Reports** (By Employee / Department / Type / Installment Schedule) to analyse the portfolio.

Steps — Configure deduction types (Manager)

1. Open Deductions → Configuration → Deduction Types.

The screenshot shows a web application interface for configuring deduction types. The top navigation bar includes 'Deductions', 'Dashboard', 'Self-Service', 'Operations', 'Reports', and 'Configuration'. The left sidebar lists various modules: Discuss, Calendar, Dashboards, Commissions, Deductions (highlighted), Employees, Time Off, and Apps. The main content area is titled 'Deduction Types' and features a 'New' button, a search bar, and a table of existing deduction types. The table has columns for Code, Name, Category, Loan (5-step ...), Managed By, Default I..., and Payroll P... The table lists five deduction types: LOAN (Personal Loan, Borrowed (with employee consent), Accounting, 4, 40), OTHR (Other, Company Paid (on behalf of employee), Accounting, 1, 100), ADV (Salary Advance, Borrowed (with employee consent), HR Department, 1, 30), GOVPEN (Government Penalty, Company Paid (on behalf of employee), HR Department, 1, 10), and INTPEN (Internal Penalty, Company Paid (on behalf of employee), HR Department, 1, 20).

Code	Name	Category	Loan (5-step ...)	Managed By	Default I...	Payroll P...
LOAN	Personal Loan	Borrowed (with employee consent)	☒	Accounting	4	40
OTHR	Other	Company Paid (on behalf of employee)	☐	Accounting	1	100
ADV	Salary Advance	Borrowed (with employee consent)	☐	HR Department	1	30
GOVPEN	Government Penalty	Company Paid (on behalf of employee)	☐	HR Department	1	10
INTPEN	Internal Penalty	Company Paid (on behalf of employee)	☐	HR Department	1	20

2. Review or edit a type's key settings:

- **Is Loan** — whether it uses the full 4-step approval chain.
- **Managed By** — HR or Accounting (who can close installments outside payroll).
- **Default installments** and **priority**.

3. Save. New/edited types are available when creating deductions.

Steps — Edit or delete a loan before confirmation (Manager)

1. Open a loan that is still **pre-confirmation** (before disbursement).
2. Adjust the amount/installments, or delete the record if it has no paid installments. (Once active/confirmed, use the Accounting payment tools instead.)

What happens next

Config changes take effect immediately for new records. Existing active deductions keep their original schedule.

Common issues

Symptom	Cause	Fix
I can't see the Configuration menu	You're an officer, not a manager	Type configuration is a manager privilege
Can't delete a loan	It has paid installments / is active	Deletion is limited once payments exist
