Employee Guides

For **every staff member**. These cover the things you do for yourself, no matter your department. You only ever see and act on your **own** records.

First time in the system? Read the **General guide (Getting Started)** first.

What you can do

I want to...	Guide
See my attendance and whether a day is covered	View my attendance
Request annual, sick, unpaid or other leave	Request time off
Ask for a loan and track its approval	Request a loan
View and download my payslip	View my payslip
Report an IT problem or ask IT for something	Raise an IT support ticket

The golden rules

- **You act only on your own records.** Requests you create go to your **direct manager** first, then onward through the approval chain.
- **Watch the status bar** on any request to see where it is.
- **Use your Inbox** (bell icon, top-right) — you are notified at every step, including if a request is refused and why.

Viewing My Attendance

Who is this for: Employee **How long it takes:** 1 minute

What this does

Lets you see your own attendance records — the days and hours you were present, and whether you were late or left early.

Before you start

- You can only see **your own** attendance.

Steps

1. **Open the Attendances app** from the menu. You'll see your own attendance records, most recent first.

The screenshot shows the 'Attendances' app interface. The top navigation bar includes 'Attendances', 'Overview', 'Management', 'Reporting', and 'Attendance Analysis'. The user is logged in as 'Kawther Sweet Water Cont. Co.'. The left sidebar contains various app icons: Discuss, Calendar, Dashboards, Loans, Employees, Payroll, Attendances (highlighted), Time Off, and Apps. The main content area displays a table titled 'Attendances' with a search bar and filters. The table has columns for 'Employee', 'Day', 'Check In', 'Check Out', 'Worked Hours', 'Late Minutes', and 'Earl'. A single row is visible for 'July 2026 (26)', showing '208:00' for 'Worked Hours' and '0.00' for 'Late Minutes'.

Employee	Day	Check In	Check Out	Worked Hours	Late Minutes	Earl
	July 2026 (26)			208:00	0.00	

2. **Read your records** — each row shows the **day**, **check-in** and **check-out** times, **worked hours**, and any **late** or **early** minutes. Colour highlights make it easy to scan: green for a normal day, and a highlight on days where you were late or left early.

Employee	Day	Check In	Check Out	Worked Hours	Late Minutes	Eai
Train Employee	Thursday	Jul 30, 8:00:00 AM	Jul 30, 4:30:00 PM	08:00	0.00	
Train Employee	Wednesday	Jul 29, 8:00:00 AM	Jul 29, 4:30:00 PM	08:00	0.00	
Train Employee	Tuesday	Jul 28, 8:00:00 AM	Jul 28, 4:30:00 PM	08:00	0.00	
Train Employee	Monday	Jul 27, 8:00:00 AM	Jul 27, 4:30:00 PM	08:00	0.00	
Train Employee	Sunday	Jul 26, 8:00:00 AM	Jul 26, 4:30:00 PM	08:00	0.00	
Train Employee	Saturday	Jul 25, 8:00:00 AM	Jul 25, 5:00:00 PM	08:00	0.00	
Train Employee	Thursday	Jul 23, 8:00:00 AM	Jul 23, 4:30:00 PM	08:00	0.00	
Train Employee	Wednesday	Jul 22, 8:00:00 AM	Jul 22, 4:30:00 PM	08:00	0.00	
Train Employee	Tuesday	Jul 21, 8:00:00 AM	Jul 21, 4:30:00 PM	08:00	0.00	
Train Employee	Monday	Jul 20, 8:00:00 AM	Jul 20, 4:30:00 PM	08:00	0.00	
Train Employee	Sunday	Jul 19, 8:00:00 AM	Jul 19, 4:30:00 PM	08:00	0.00	
Train Employee	Saturday	Jul 18, 8:00:00 AM	Jul 18, 5:00:00 PM	08:00	0.00	
Train Employee	Thursday	Jul 16, 8:00:00 AM	Jul 16, 4:30:00 PM	08:00	0.00	
Train Employee	Wednesday	Jul 15, 8:00:00 AM	Jul 15, 4:30:00 PM	08:00	0.00	
Train Employee	Tuesday	Jul 14, 8:00:00 AM	Jul 14, 4:30:00 PM	08:00	0.00	
Train Employee	Monday	Jul 13, 8:00:00 AM	Jul 13, 4:30:00 PM	08:00	0.00	
Train Employee	Sunday	Jul 12, 8:00:00 AM	Jul 12, 4:30:00 PM	08:00	0.00	
Train Employee	Saturday	Jul 11, 8:00:00 AM	Jul 11, 5:00:00 PM	08:00	0.00	

What happens next

This view is read-only. If a record looks wrong (a day missing, or wrong times), contact **HR** — they can check the device records and correct them.

Common issues

Symptom	Cause	Fix
A record looks wrong	Device or timing issue	Contact HR to check and correct it
A day I was on leave still shows	Coverage applies once the leave is approved	Track your leave in Time Off

Related guides

- [Request time off](#)

Requesting Time Off

Who is this for: Employee (requesting for yourself) **How long it takes:** 2–3 minutes

What this does

Lets you request a leave — annual vacation, sick, unpaid, or another type — and sends it through the approval chain. You can watch its progress the whole way.

Before you start

- Know your **dates** (leave is counted in **calendar days, including weekends and holidays**).
- For **annual** leave, know your balance. If you want to take more days than your balance, decide whether to take the extra days **unpaid**.

Steps

1. **Open Time Off.** From the main menu choose **Time Off** → **My Time Off** → **New**.

The screenshot shows the 'My Time Off' interface. On the left is a sidebar with a menu including 'Discuss', 'Calendar', 'Dashboards', 'Workshop', 'Loans', 'Helpdesk', 'Employees', 'Payroll', 'Attendances', 'Time Off' (highlighted), and 'Apps'. The main area has a header with 'Time Off', 'My Time', 'Overview', and 'Leave Balances'. Below the header is a 'New My Time Off' button and a search bar. A table displays the following data:

☐ Time Off Type	Start Date	End Date	Duration	Status	Approval Progress	Return St...
☐ Annual Vacation (الإجازة السنوية)	Sep 3, 8:00 AM	Sep 5, 4:30 PM	3 days	To Appr...	Pending HR Confirmation	N/A
☐ Annual Vacation (الإجازة السنوية)	Aug 27, 8:00 AM	Aug 29, 4:30 PM	3 days	To Appr...	Pending GM Final	N/A
☐ Annual Vacation (الإجازة السنوية)	Aug 20, 8:00 AM	Aug 22, 4:30 PM	3 days	To Appr...	Pending Accounting	N/A
☐ Annual Vacation (الإجازة السنوية)	Aug 13, 8:00 AM	Aug 15, 4:30 PM	3 days	To Appr...	Pending GM Initial	N/A
☐ Annual Vacation (الإجازة السنوية)	Aug 6, 8:00 AM	Aug 8, 4:30 PM	3 days	To Appr...	Pending HR Approval	N/A
☐ Annual Vacation (الإجازة السنوية)	Jul 30, 8:00 AM	Aug 1, 4:30 PM	3 days	To Appr...	Pending DM Approval	N/A

2. **Pick the leave type** — for example *Annual Vacation*, *Sick Leave*, or *Unpaid Leave*. The form adjusts to the type you choose.

3. **Choose your dates** (From / To). The number of days is calculated for you.

4. **(Annual leave only) Choose how to handle your balance**, if relevant:

- **Full Balance Clearance** — use up your entire remaining balance.
- **Accept Excess as Unpaid** — if you asked for more days than you have, the extra days are taken as unpaid instead of blocking the request.

5. **Submit.** Click **Submit**, then **Save**.

What happens next

Your request moves to **Pending DM Approval** and your **direct manager** is notified. From there, the path depends on the leave type:

- **Annual leave** follows a 6-step chain: **Direct Manager → HR → GM (initial) → Accounting → GM (final) → HR confirms the signed form**. You can follow each step on the status bar.
- **Sick / casual / other leaves** follow a 2-step chain: **Direct Manager → HR**.
- **Unpaid leave** follows a 2-step chain: **Direct Manager → HR**.

You are notified at each approval, and again if the request is **refused** (with the reason). A refused request can be edited and re-submitted — open it and use **Reset to Draft**.

To check status any time: **Time Off → My Time Off**, and read the **Approval Progress** badge, or open the request and look at the status bar.

Coming back from annual leave? You don't confirm your own return — your **direct manager** records it for you once you're back at work. If your next payslip is delayed, it may be waiting on that confirmation; remind your manager.

Common issues

Symptom	Cause	Fix
"Submit" button is missing	Already submitted	Check the status bar — it's already past Draft
My request was refused	An approver declined it	Open it, read the reason in the chatter, fix it, then Reset to Draft and re-submit
I can't pick more days than my balance	Annual balance too low	Enable Accept Excess as Unpaid to take the extra days unpaid
My manager can't see it	No direct manager set on your record	Ask HR to set your manager; meanwhile HR can approve the first step

Requesting a Loan

Who is this for: Employee (requesting for yourself) **How long it takes:** 3–5 minutes

What this does

Lets you apply for a personal loan that is repaid automatically in monthly installments deducted from your salary. You fill in one form, attach any supporting documents, and the request goes through four approval steps before the money is disbursed.

Before you start

- Decide the **amount** and how many **monthly installments** you want. The system shows the resulting monthly payment as you type.
- Have a clear **reason** ready (required) and any **documents** to attach.

Steps

1. **Open your loans.** Open the **Loans** app, then **Self-Service → My Loans**.

Name	Employee	Department	Type	Category	L...	Amount	Installm...	Employee's T...	Total Paid	Total Pending	Progress ...	Start Month	Sta
LO00663	Train Emp...		Personal L...	Borrowed...		5,060.00 SAR	10	1,512.00 SAR	500.00 SAR	4,560.00 SAR	10 %	Jul 1	Active
						5,060.00 SAR			500.00 SAR	4,560.00 SAR			

2. **Start a request.** Click **Request a Loan** (top-right of the list — it is always visible).

Name	Employee	Department	Type	Category	L...	Amount	Installm...	Total Paid	Total Pending	Progress ...	Start Month	State	Approv
LO00663	Train Emp...		Personal L...	Borrowed...		5,060.00 SAR	10	0.00 SAR	5,060.00 SAR	0 %	Jul 1	Active	Approved
						5,060.00 SAR		0.00 SAR	5,060.00 SAR				

3. **Fill in the loan details** — Type, Amount, number of Installments, and the Start Month. The **monthly installment** is calculated for you.

Request a Loan

Submit a new loan request

Your request will be reviewed in four steps: 1. DM > 2. HR > 3. Accounting > 4. GM . Track progress under **My Loans**.

Step 1 — Loan Details

Loan Type ? Personal Loan Start Month ? Jul 1

Amount 0.00 SAR Installment Amount ? 0.00 SAR

Installments ? 4

Step 2 — Justification & Documents

Why do you need this loan? (required)

Additional notes, repayment preferences...

SUPPORTING DOCUMENTS

Supporting Documents

Submit Request Cancel

4. **Add your justification** — a **Reason** (required), an optional description, and any **attachments** (e.g. a quotation or supporting letter).
5. **Review the summary** at the bottom (amount, duration, approximate monthly payment, start date), then click **Submit Request**.

Discuss Discuss Channels Configuration

Submit a new loan request

Your request will be reviewed in four steps: 1. DM > 2. HR > 3. Accounting > 4. GM . Track progress under My Loans.

Step 1 — Loan Details

Loan Type ? Personal Loan Start Month ? Jul 1

Amount 0.00 SAR Installment Amount ? 0.00 SAR

Installments ? 4

Step 2 — Justification & Documents

Why do you need this loan? (required)

Additional notes, repayment preferences...

SUPPORTING DOCUMENTS

Supporting Documents

Submit Request Cancel

What happens next

Your loan moves to **Pending DM Approval** and follows this chain:

Direct Manager → HR → Accounting → GM (final) → Disbursement

- After the **GM's final approval**, you receive a notification that your loan is **approved and ready for disbursement**. Go and **collect the funds** from the finance/disbursement officer.
- Once they hand over the money and click **Confirm Disbursement**, the loan becomes **Active** and its installments start being deducted from your payslips. (Practically: you receive the money first, and the officer confirms it in the system afterwards.)
- If any approver **refuses** the request, you are notified with the reason. The loan shows a red refusal banner; open it and use **Reset to Draft** to adjust and re-submit.

You can also check your loan's progress any time in **Loans → Self-Service → My Loans**.

Tracking your loan: in **Loans → Self-Service → My Loans** you can see the approval state, and once active, the **Total Paid / Total Pending** and a progress bar. Open the loan and check the **Installments** tab for the full repayment schedule.

Common issues

Symptom	Cause	Fix
I don't see "Request a Loan"	You're not on the My Loans list	Go to Loans → Self-Service → My Loans ; the button is at the top-right
Submit is disabled	A required field is empty	Fill the Reason ; check Amount and Installments are set
My loan was refused	An approver declined it	Read the reason on the loan, then Reset to Draft , fix it, and re-submit
Installments haven't started	Loan not yet disbursed	It becomes Active only after Confirm Disbursement — check the status bar

Related guides

- **View my payslip** — where you'll see loan deductions
- **Getting Started**

Viewing My Payslip

Who is this for: Employee **How long it takes:** 1 minute

What this does

Lets you open and download your monthly payslip and see how your **net salary** was calculated — your basic pay, additions, and any deductions such as loan installments or attendance deductions.

Before you start

- You can only see **your own** payslips.
- A payslip appears once HR/payroll has generated the month's payroll.

Steps

1. **Open Payroll** from the main menu, then **My Payslips**.

2. **Open the month** you want. The **Net Salary** is shown on the list and at the bottom of the payslip.
3. **Read the salary lines**, top to bottom:
 - **Basic** — your base salary.

- **Gross** — total of your additions.
- **Attendance Deduction** — deducted for uncovered absence / lateness.
- **Total Deductions** — the sum of your loan/penalty installments this month.
- **Net Salary** — what is transferred to your bank.

The screenshot shows the 'Payroll' section of a system for 'Kawther Sweet Water Cont. Co.'. It displays a salary slip for employee 'AAT KHAN LATIF KHAN' for the period 'Jun 1 - Jun 30'. The slip is in 'Draft' status. Key details include: Employment start date 'Jul 1, 2013', Reference 'SLIP/11163', and a 'Salary Slip of AAT KHAN LATIF KHAN for June-2026'. A table under 'WORKED DAYS' shows 'Attended Days' with a count of 26.00 days (192.00 hours) and a deduction of 0. The interface also includes tabs for 'Refund', 'Cancel Payslip', and 'Send E-Mail', and a sidebar with various navigation options.

4. **Download / print** using the print icon if you need a copy (e.g. for a bank or a visa).

What happens next

This view is read-only. If a figure looks wrong:

- **Loan deduction questions** → see [Request a loan](#); the Installments tab of your loan shows the full schedule.
- **Attendance deduction questions** → check [your attendance](#); an uncovered absence causes a deduction.
- **Anything else** → contact HR/payroll.

Common issues

Symptom	Cause	Fix
No payslip for this month	Payroll not generated yet	Wait for the payroll run, or ask HR
Net is lower than expected	A loan installment / attendance deduction applied	Open the payslip; the deduction lines explain the difference

Raising an IT Support Ticket

Who is this for: Employee (for yourself) **How long it takes:** 2 minutes

What this does

Reports an IT problem — or asks IT for something you need — as a tracked ticket instead of a phone call or a message. The IT team is notified the moment you save, and you can follow the ticket to resolution from the same screen.

Every ticket is one of two kinds, and you choose which:

Kind	Use it when	Ticket number
Incident	Something is broken or not behaving as it should — laptop won't start, no internet, printer jams, email not sending	INC00001
Service Request	Nothing is broken; you need something — new software, a new device, access to a folder, a password reset, or just information	REQ00001

The kind you pick decides which **Categories** are offered, and it is **fixed once the ticket is created** — it sets the ticket number. If you get it wrong, close the ticket and raise a new one of the right kind.

Before you start

- You can raise a ticket **for yourself**. (If you manage people, you may also raise one for a direct report — see [Raising a ticket for a team member](#).)
- Have the details ready: what exactly happens, when it started, any error message, and which device it concerns.

Steps

1. **Open the Helpdesk app**, then **My Tickets**. This list shows every ticket you have raised, open and closed.

2. **Click New.**

3. **Choose the kind** at the top of the form — **Incident** or **Service Request**.

4. **Write a short description** in the title line — one clear sentence, e.g. *"Laptop won't turn on"*, not *"urgent problem"*.

5. **Pick the Category** that fits (Hardware, Software, Network & Internet, Email, Printer, Access & Permissions, Other — and for service requests, New Hardware

Request, New Software Installation, Access / Permission Request, Password Reset, Information / How-To). Only categories belonging to the kind you chose are offered.

6. **Link the Related Asset** if the ticket is about a specific device. The list only offers equipment currently registered to you — your laptop, your phone, your monitor. Leave it empty if it doesn't apply.
7. **Set the Priority** honestly (Low / Medium / High / Urgent). Medium is the default and is right for most tickets.
8. **Fill in the Detailed Description** tab — this is required, and it is what gets the fix moving. Include what you were doing, the exact error text, and whether it happens every time.

The screenshot shows the 'Helpdesk My Tickets' interface. On the left is a sidebar with navigation links: Discuss, Calendar, Dashboards, Workshop, Loans, Helpdesk (selected), Employees, Payroll, Attendances, Time Off, and Apps. The main area is titled 'My Tickets' and has a 'New' button. A light blue tip box says: 'Quick tips for a faster fix: choose whether this is an Incident (something broken) or a Service Request (something you need), pick the matching Category, describe the issue with as much detail as you can, and link the Related Asset if it applies. The IT team is notified the moment you save.' Below this are radio buttons for 'Incident' (selected) and 'Service Request'. A 'Short Description' field with the placeholder 'Briefly describe the issue...' is present. The 'New' section contains two columns: 'CALLER' and 'TICKET DETAILS'. The 'CALLER' column has fields for 'Reported By' (Train Employee), 'Job Position' (Sales Representative), 'Email' (train.employee@alkawthersw.com), 'Work Phone' (+966 11 000 0000 with SMS icon), and 'Mobile' (+966 55 000 0000 with SMS icon). The 'TICKET DETAILS' column has fields for 'Category', 'Related Asset', 'Priority' (set to 3 stars), and 'Deadline'. Below these is a 'Detailed Description' tab with the placeholder 'Describe the issue in as much detail as possible...'. On the right, there are tabs for 'External', 'Internal' (selected), 'Note', and 'Activity'. A timeline shows an entry for 'Train Employee' at 4:34 PM with the status 'Creating a new record...'.

9. **Save.** The ticket gets its number (INC... / REQ...) and enters the **New** stage.

What happens next

- Your ticket lands in the IT team's queue in the **New** stage. When an agent takes it, it moves to **In Progress** and their name appears in **Assigned To**.
- **Talk to IT on the ticket itself.** In the message box at the bottom (the chatter), click **External**, type, and send — everyone following the ticket is notified. Attach a photo or a screenshot of the error the same way. This keeps the whole history in one place instead of scattered across calls.
- If IT needs something from you and can't proceed, they set the ticket to **Blocked** — you'll see a red marker on it.
- When the work is done, IT closes the ticket. It moves to **Closed**, the closing date and who closed it are recorded, and a **Resolution Feedback** box appears on the ticket: rate it **Great**, **Okay** or **Not Good**. Please answer — it is the only feedback the IT team gets.

What you can and cannot change. You own the content of your ticket — title, description, category, asset, priority, deadline. The **stage**, the **assignee** and the **blocked/ready marker** belong to the IT team; you can see them but not set them.

Common issues

Symptom	Cause	Fix
The Category list is empty or missing the one I want	Categories are split by kind	Check the Incident / Service Request choice at the top — the list changes with it
I can't change Incident to Service Request	The kind is fixed after creation (it sets the ticket number)	Close this ticket and raise a new one of the right kind
Related Asset doesn't offer my laptop	The asset isn't registered to you in the system	Raise the ticket without it and say which device it is in the description; IT will correct the register
I can't change the stage or assign the ticket	Those belong to the IT team	Ask in the ticket's message box — IT is notified
"You can only create or edit tickets for yourself or your direct reports"	Reported By points at someone who is not you or a direct report	Set Reported By back to yourself
I don't see a ticket a colleague raised	You only ever see your own tickets (and your direct reports')	That is by design
