Payroll Guides

For the **payroll initiator** — the person who runs the monthly payroll. You create the payslip batch, generate the payslips, resolve any employees the system skipped, and export the bank transfer file.

Start with the **General guide (Getting Started)**.

What you can do

I want to...	Guide
Create a batch and generate payslips	Generate a payslip batch
Fix employees the system skipped	Resolve skipped employees
Export the bank transfer file	Bank file export

The golden rules

- Payroll for an employee is **blocked** if they have an **unconfirmed annual-leave return** — those employees are *skipped* and must be resolved.
- Loan and penalty installments, and attendance deductions, flow into payslips automatically — you don't enter them by hand.
- The bank file is generated **per bank**, with NET totals shown on the batch.

Generating a Payslip Batch

Who is this for: Payroll initiator **How long it takes:** 5–10 minutes per month

What this does

Lets you run the monthly payroll: create a batch for the period, generate a payslip for each employee, and review the results before export.

Before you start

- Make sure attendance and any commission/loan updates for the period are done.
- Employees with an **unconfirmed annual-leave return** will be skipped — chase those confirmations first if you can.

Steps

1. **Open Payroll → Payslip Batches** and create a new batch for the **period**.

☐ Name	Date From	Date To	Credit Note	Status
☐ March 2026 Payrol	Mar 1	Mar 31	☐	Close
☐ April Payroll	Mar 26, 2025	Apr 25, 2025	☐	Close
☐ May 2025 Payroll	May 1, 2025	May 31, 2025	☐	Close
☐ may 2025 payslip final	May 1, 2025	May 31, 2025	☐	Close
☐ payslip for May 2025 the final draft	May 1, 2025	May 31, 2025	☐	Close
☐ Payslip for June 2025	Jun 1, 2025	Jun 30, 2025	☐	Close
☐ July Payslip	Jul 1, 2025	Jul 31, 2025	☐	Close
☐ Payslip for August	Aug 1, 2025	Aug 31, 2025	☐	Close
☐ test august	Aug 1, 2025	Aug 31, 2025	☐	Close
☐ Sept 2025	Sep 1, 2025	Sep 30, 2025	☐	Close
☐ Sept Payslip 2025 final	Sep 1, 2025	Sep 30, 2025	☐	Close
☐ Payslip for October 2025	Oct 1, 2025	Oct 31, 2025	☐	Close
☐ Payslip for Nov 2025	Nov 1, 2025	Nov 30, 2025	☐	Close
☐ Payslip for Dec 2025	Dec 1, 2025	Dec 31, 2025	☐	Close
☐ Payslip for Dec 2025 - Post 3 days	Dec 1, 2025	Dec 31, 2025	☐	Close
☐ Payslip for Jan 26	Jan 1	Jan 31	☐	Close
☐ Payslip for Feb 2026	Feb 1	Feb 28	☐	Close
☐ March 2026 Payslip	Mar 1	Mar 31	☐	Close
☐ Payslip for April 2026 - Revised	Apr 1	Apr 30	☐	Close

2. Set the employees/period as needed, then click **Generate**.

3. The system creates a payslip per employee. Each payslip computes Basic → Gross → deductions (attendance, loans/penalties) → **Net Salary**.
4. **Review** the batch: open a few payslips to sanity-check the NET, and check the **Skipped Employees** section for anyone left out (see the next guide).

What happens next

Once the payslips look right, you can refresh the per-bank NET totals (**Refresh Totals**) and export the bank file (see **Bank file export**).

Common issues

Symptom	Cause	Fix
Some employees have no payslip	They were skipped	See Resolve skipped employees
A NET looks wrong	A deduction/attendance issue	Open the payslip; the lines explain it. Fix the source (loan/attendance) and regenerate
Generate seems stuck	Large batch	Give it a moment; it processes each employee

Resolving Skipped Employees

Who is this for: Payroll initiator **How long it takes:** varies

What this does

When you generate payslips, the system **skips** any employee it can't process and lists them with a reason. This guide explains how to clear those so everyone gets paid.

Before you start

- The most common reason is an **unconfirmed annual-leave return** — payroll is deliberately blocked until the employee confirms they're back.

Steps

1. In the batch, open the **Skipped Employees** section. Each row shows the employee and the **reason** they were skipped.

Add a line							

SKIPPED EMPLOYEES

The following employees were automatically skipped during payslip generation. Resolve the issue shown and re-generate payslips to include them.

Employee	Reason Skipped
Train Employee	Unconfirmed annual-leave return
Train Supervisor	No bank account on file

2. **Fix the cause** of each skip:
- *Unconfirmed leave return* → the employee (or HR) confirms the return date on the leave. See the employee guide **Confirm my return**.
 - Other data issues → correct the underlying record (contract, bank, etc.).

3. **Re-generate** the payslips. Resolved employees now get a payslip. Use **Clear Skip Log** to tidy the list once handled.

What happens next

Once no one is skipped (or the remaining skips are intentional), proceed to the **Bank file export**.

Common issues

Symptom	Cause	Fix
Same employee keeps getting skipped	The cause isn't fixed yet	Resolve the exact reason shown, then regenerate
Skip list is cluttered	Old entries	Use Clear Skip Log

Exporting the Bank File

Who is this for: Payroll initiator **How long it takes:** 2 minutes

What this does

Lets you export the salary transfer file for a completed payslip batch, ready to upload to the bank. Totals are shown per bank so you can reconcile before paying.

Before you start

- Generate and review the batch first, and resolve skipped employees.

Steps

1. Open the payslip batch. Click **Refresh Totals** to recalculate the per-bank NET totals, then check the table (Bank Account, Employee Count, Total NET).

The screenshot shows the 'Export Bank File' screen in the Payroll system. The interface includes a sidebar with navigation options like Discuss, Calendar, Contacts, Dashboards, Loans, Employees, Payroll, Time Off, and Apps. The main content area displays the 'June 2026 Payslip' batch. It features a 'Refresh Totals' button and a table titled 'NET TOTALS BY BANK ACCOUNT'.

Account	Employees	Total NET
Kawther Raj Cards - Al Rajhi Bank	285	384,510.00
Kawther WPS - Al Rajhi Bank	55	228,581.00
Hayat Raj Cards - Al Rajhi Bank	23	39,659.00
Hayat WPS - Al Rajhi Bank	2	10,983.00

Below the table is a search bar for 'Search Payslip Lines' and a pagination indicator '1-40 / 365'. A table of individual payslip lines is also visible:

Reference	Employee	Payslip Name	Date From	Date To	Net Salary	Status	Payslip Ba...
SLIP/11534	MARYAM IBRAHIM HABIB ALHAYEK	Salary Slip of مريم ابراهيم بن حبيب الحايك for June-2026	Jun 1	Jun 30	3,477	Done	
SLIP/11533	MOHAMED IBRAHIM HASSAN IBRAHIM	Salary Slip of محمد ابراهيم حسن ابراهيم for June-2026	Jun 1	Jun 30	3,200	Done	
SLIP/11532	ميروك بكري نهامي بكري	Salary Slip of ميروك بكري نهامي بكري for June-2026	Jun 1	Jun 30	80	Done	

2. Click **Export Bank File**, choose the format (WPS / bank), and download.

3. Upload the file to the bank through your normal banking process.

What happens next

The exported file is the record of what you paid. Keep it with the batch for reconciliation.

Common issues

Symptom	Cause	Fix
Totals look outdated	Not refreshed after changes	Click Refresh Totals again
An employee missing from the file	They were skipped, or have no bank account	Resolve the skip; ensure the employee's bank account is set
